Product	Small	Medium	Large
School Management System	₦400,000	₦750,000	₦1,500,000
CBT (Computer-Based Testing)	₦200,000	₦400,000	₦700,000
Question Bank	₦150,000	₦250,000	₦400,000
All three (15% bundle discount)	₦637,500	₦1,190,000	₦2,210,000

Optional yearly support and updates plan: 20% of the purchase price per year. Full source-code ownership is available on request and quoted separately.

One-time fees (both options)

Service	Fee
Setup and offline installation (one school site)	₦50,000
Student records data migration	₦30,000
Staff training session	₦20,000 per session

Yearly hosting and domain (online version only)

The online version runs on cloud servers with your school's own web address. These costs are billed yearly, upfront, and apply to both Option A and Option B. The offline version installed on your school computers needs no hosting fee.

Item (yearly)	Small	Medium	Large
Cloud hosting and server space	₦130,000	₦260,000	₦525,000
Domain name (web address)	₦40,000	₦40,000	₦40,000
Total per year	₦170,000	₦300,000	₦565,000

Server size: Small = 1 GB server, Medium = mid-tier server, Large = 4 GB server. Fees are reviewed at each yearly renewal and may change with the exchange rate. A school that already has its own domain or server pays only for the part it needs.

How the hosting fee is worked out (provider examples)

Cloud servers and domains are paid for in US dollars, once a year. We convert at ₦1,400 per \$1 (the official rate on 28 Sep 2026 was about ₦1,330 and the open-market rate about ₦1,390; the planning rate is slightly higher to cover card charges). Our yearly fee covers the provider cost plus setup, backups, monitoring and exchange-rate changes, rounded to the nearest ₦5,000.

Example (server + .com domain)	Server / year	Domain / year	Total (USD)	Total (₦)
DigitalOcean 1 GB (\$6/mo) + GoDaddy .com	\$72 = ₦100,800	\$22.99 = ₦32,186	\$94.99	₦132,986
Vultr 1 GB (\$6/mo) + Namecheap .com	\$72 = ₦100,800	\$18.48 = ₦25,872	\$90.48	₦126,672
Hetzner cloud (\$7.09/mo) + Namecheap .com	\$85.08 = ₦119,112	\$18.48 = ₦25,872	\$103.56	₦144,984
Hostinger VPS (\$6.49/mo) + Spaceship .com	\$77.88 = ₦109,032	\$9.98 = ₦13,972	\$87.86	₦123,004
Vultr 4 GB (\$24/mo) + Namecheap .com (large schools)	\$288 = ₦403,200	\$18.48 = ₦25,872	\$306.48	₦429,072

Provider prices are their published 2026 rates and change over time. Taxes and small registry fees are extra. Some providers (for example Hostinger) charge more when the introductory period ends.

Discounts

- Early adopter: 50% off the first term (termly licence only)
- Pay all three terms upfront: 10% off the yearly licence (termly licence only)
- Take all three products: 15% off (already included in the bundle prices above)
- The early-adopter and upfront-payment discounts cannot be combined, and neither applies to hosting, domain or one-time fees.

Terms

- Prices are in Nigerian Naira and exclude any applicable taxes.
- Termly fees are due at the start of each term. Access may be suspended if a termly fee is more than 14 days overdue.
- Hosting and domain fees are due yearly, upfront. If they are not renewed, the online version may go offline until payment is received.
- The school owns its data. We keep the intellectual property of the software unless source-code ownership is purchased.
- Prices are valid until 29 October 2026.
